STAND OUT!

The Quickswap with Tag Axle is a class of its own. It features a unique lightweight yet powerful detachable design to let you do things differently, stand out, and be successful where others fail.

Safety first: When everything goes so fast, braking power is crucial. The additional set of brakes will make you stay in control and stop whenever you have to.

Don't miss a call: Detachable design will help you deliver during the high season and be flexible when business goes back to normal. Add a winch and use it as a supporting recovery unit.

Do more: Put the tag axle down and tow what others can't. Lift it up and save on fuel. Increase your revenues. Lower your costs. Quickly see the return on investment.

Don't worry, ride happy: Experience the outstanding driveability thanks to the adjustable air ride suspension. Haul heavier vehicles and cross the scale with a big smile across your face.
