Tow rating: 50 000lbs [22 750kg]
Deck length: 24'30" [7,3m-9,1m]
Operating pressure: 3000psi [210 Bars]

EXTREME RECOVERY?

With their **STRONG AND STURDY CONSTRUCTION**, NRC Carriers make recoveries **SAFER, EASIER AND MORE COST EFFECTIVE.**

Use the roller guide and recovery spades to side or straight pull from the end of deck. Now, an essential piece of equipment that's both **POWERFUL AND AFFORDABLE.**

GO AHEAD

tow away

**BIG LOADS, EXTREME CONDITIONS,
TIGHT SCHEDULES?**

When you own or operate a **40,000 - TB SERIES** carrier, you impress the most demanding customers. Be the only one on the calling list.

LONG LASTING STRENGTH: One call after the other, the 40,000 - TB Series is built to move anything that needs moving. Its reinforced deck beams, rigid cross-members and oversized sub frame components push the limit of what a rollback carrier can haul in a day, every single day.

VERSATILE: The 40TB tow bar's 10 T lifting capacity and 25 T tow rating means you can go a step further and tow heavy trucks while hauling cargo on the deck. You get to optimize your operations, and loads combined with tractor swap make it even more profitable.
